

Yichen Wang

Age: 25

Gender: Male

Location: Taipei, Taiwan

Occupation: Computer engineer

Status: Married

Archetype: The Explorer

Travel style: Random trips with friends, Spontaneous, enjoys exploration and gamified experiences

Yichen is a local user living in Taiwan. He enjoys discovering new experiences spontaneously and prefers exploring activities in a quick and intuitive way. He prefers using social media (Instagram, Google) instead of official platforms, which he finds too complex and not engaging. Instead of planning ahead, he relies on what catches his attention in the moment and makes decisions rapidly.

Background

Personal Behaviors

- Scrolls quickly through content
- Makes decisions in a few seconds
- Focuses on visuals, titles, and highlights
- Rarely reads detailed descriptions

Needs

- A simple and visually engaging interface
- Quick summaries of events
- Personalized recommendations
- Easy and fast navigation

Goals

Primary Goals:

- Quickly find interesting and fun cultural activities
- Discover unique or unusual experiences
- Avoid spending too much time searching

Motivations:

- To quickly discover exciting activities without effort
- To enjoy spontaneous experiences during his stay
- To be inspired by visually engaging and dynamic content

Frustrations

- Too much text and long descriptions
- Content that is not visually engaging
- Irrelevant or random recommendations
- Spending too much time browsing without results

"If I don't find something interesting quickly, I just move on."
